

Occupational Training Requirements

All services are based on eligibility and availability of funding

1. Occupational Training is also an option that is available to eligible claimants. The claimants estimated to be served using occupational training is 30 participants. Duration of training will be dependent upon the type of training needed for the participant; however, the Contractor will try to ensure training in 6 weeks or less.

An eligible claimant is a first-time unemployment insurance claimant with an active claim filing status on or after September 1, 2009, previously earning less than \$15/hour.

Program Requirements:

- All occupational training requires a link between the occupational training and the skills needed for successful employment and:
- Prior to authorizing training, a provisional offer of employment upon successful completion of the training.
- No eligible claimant will be placed in occupational training that does not result in a certificate issuance upon completion.
